

## WHEN WILL IT END?

UNDER-CARE KILLS MORE PEOPLE THAN OVER-CARE.

Many Try to Correct the Trouble When It Is Too Late.

"I believe," said one of Toledo's prominent physicians, "that more people die from under-care than over-care. It is rarely that one attempts to do too much for the back, the nervous, irritable condition, loss of appetite or sleep. These, they think, will get well of themselves. That's not so, but instead they mean weak bodies, feeble digestion, shaky nerves, but the principle trouble is with the stomach. Unless the food is thoroughly digested and assimilated, the body cannot be nourished, and unless the liver and kidneys properly secrete the bile and throw off the waste matter that nature does not need, the blood is poisoned and the nerves break down."

Excess of uric acid in the blood is the principle fault. Rheumatism, dyspepsia, kidney, liver and urinary troubles and the sicknesses women suffer from all arise from this one cause.

The medicine physicians rely upon to dissolve this work, the purifier of the blood and curing the disease, is Dr. David Kennedy's Favorite Remedy.

We were astonished upon inquiry to find the good this medicine has done and is doing right in our own city.

If you doubt it in the slightest degree, ask one of our friends who will refer you to a dozen or more of our best people who have purchased Dr. Kennedy's Favorite Remedy of me and have been cured of rheumatism, kidney and urinary troubles, dyspepsia and other different ailments that result from impure blood.

Mr. S. J. Young, of Akron, Ohio, came out in a public letter and said: "I have been using Dr. Kennedy's Favorite Remedy for many years and have been cured of rheumatism, kidney and urinary troubles, dyspepsia and other different ailments that result from impure blood."

## A NEW COURT HOUSE

NOW SEEMS TO BE AMONG THE EARLY POSSIBILITIES.

The Disclosures of the News-Democrat Concerning a Supreme Court Decision, a Topic of Conversation Everywhere in the City and County.

The article in Tuesday evening's issue of this paper, containing the interview with the Hon. William A. Lynch in which he opposed the plan of building an addition to the present court house, urging that the property be sold and a new structure erected on some other site and giving information on the subject of the court house land title, was the prevailing topic of conversation in public places last evening and today. The plan to sell the present property and build anew as advocated by Mr. Lynch and as would seem to be possible according to the supreme court decision cited by him, attracted much attention and very hearty approval upon the part of a large number of citizens. Many expressed themselves in a News-Democrat reporter in terms showing a strong sentiment in favor of that plan of procedure. The commissioners have begun to realize that with only \$25,000 the present court house cannot be put in anything like the shape it should be, to have it give satisfaction, and as one of them said this morning, "we ought to have about \$50,000 to do the work right."

In view of this fact Commissioner Clutz this morning stated to a reporter that he thought the theory of Mr. Lynch was about as sensible a thing as he had seen on the subject.

Commissioner Weastler had not read the interview but he seemed to feel that the present site should not be abandoned even if it were possible to sell it. He said it was worth as much to the county as to anybody else and that he thought the people at large would not be willing to change the location of the court house.

Mr. Kreighbaum thought the present site was an excellent one and his idea of having the thing done up right was to build out onto the east side nearly to the sidewalk and then put a third story on the whole structure.

None of the commissioners have a very definite idea as yet as to what should be done and their actions in the matter will undoubtedly depend largely upon the wishes of the people at large of the county as they may find expression.

If the money were at hand and there were plenty of it, the popular and the most satisfactory method would be to tear down the present buildings entirely and erect new ones from the ground up on some plan that would be the best possible in the necessities of the case, but under the present condition there is room for a variety of opinions. The plan embodied in Mr. Lynch's interview, however, has many supporters.

MAY HAVE ELOPED.

A Husband Doesn't Know Where His Wife Is.

An alleged elopement is stirring up South End people today. Mrs. Adam Black, residing on South Cleveland avenue, near the Valley railway, has left her home and her husband, and her whereabouts are unknown to her husband.

The Blacks were married some years ago and got along apparently placidly. Neighbors say that during the last few weeks a big tall fellow has been coming to visit at the Black residence during the husband's absence at his work, and this, it is stated, may have had something to do with Mrs. Black going away from home. When Black went home Tuesday evening from work he found a note on the table from his wife informing him she hadn't any special love for him and would leave for some more congenial spot.

BRAITHWAITE FREE.

The Circuit Court Says the State Failed to Make a Case.

The Circuit court rendered a decision this afternoon at 3:30 o'clock in the case of Ohio vs James Braithwaite, who is now in the Penitentiary on a life sentence. Judge F. Hett handed down the decision and after reviewing the testimony thoroughly, declared the State had failed to make out a case against the defendant and so the finding of the lower court was reversed and Braithwaite ordered discharged.

"CONNUBIAL BLISS"

Is Not What It Is Cracked Up to Be," Says Mary Deffne.

John Palmer, attorney at law, this morning filed a suit in common pleas court for divorce, in which Mary Deffne is plaintiff and Nicholas Deffne defendant. The couple live at Navarre and were married in 1888 since which time two children have been born. Five years of married life has shown the wife that the bliss of connubial existence is not always what it is cracked up to be, and now she wants to get rid of her husband. She says he drove her out of the house and would not let her come back and otherwise abused her shamefully. She asks for a divorce and alimony and for an injunction restraining him from selling his property until her claims are satisfied.

MIDDLEBRANCH.

And the Gypsies are After Them—Correspondence Democrat.

MIDDLEBRANCH, March 7.

Rev. W. Gans expects to return to Ashland to attend College in the near future. Preaching services on next Sunday evening when Rev. Shaver will preach his farewell sermon.

The Oval City Literary society will meet Friday evening. They expect to have an interesting program.

Quite a number of gypsies are camping in Mr. Austine's woods, a little southwest of town. They prove to be quite a pest to some of the people of the town and vicinity. They are very successful in gaining the sympathies of the people and claim to be possessed of the power to counteract. Indeed it seems from the fact that the people give them almost anything they ask for, from hay by the load to canned fruit by the bushel.

## COUNTY ATTORNEY BOW

Submits His Opinion on the Fair Grounds Project.

Prosecuting Attorney C. C. Bow has completed his examination of the law and the titles which have a bearing on the question of selling the fair grounds, and his opinion was submitted to the county commissioners today. The opinion is in entire harmony with the report of the status of affairs published in the News-Democrat last week and shows that if the commissioners sell the present grounds they will have no power to use money to buy new ones unless the agricultural society pays half the bill, which of course is impossible as it has no money, and that a special act of the legislature would have to be secured to allow the commissioners to buy new quarters, or else the agricultural society would find itself in a bad predicament. Under the present grounds they will have no power to use money to buy new ones unless the agricultural society pays half the bill, which of course is impossible as it has no money, and that a special act of the legislature would have to be secured to allow the commissioners to buy new quarters, or else the agricultural society would find itself in a bad predicament.

On an examination of the Abstract of Title to the Fair Ground property recently furnished me—I find the fee simple title held by the county commissioners. The Agricultural Society to use and occupy the grounds for the purpose of holding its annual fair.

And, under most of the deeds, if not all, which said society seems to use the same title and are not at this time to the commissioners are the absolute owners without reservation or restriction. And when the same is abandoned for fair purposes, the Agricultural Society would have a right to sell the same and the money received therefor would be placed in the County Treasury.

I have never been furnished a copy of the Resolution of the Agricultural Board giving rise to your questions submitted to me, but I am of the opinion that if I say whether by that Resolution you believe the power to sell said grounds belongs to the Agricultural Board or not. Am, however, of the opinion that if the grounds are sold by you and the money placed in the Treasury of the County, as it is now, you would have no right to certify the whole, or any part thereof, out for the purchase of any other site, unless said Board would contribute like amount to the purchase of the new site. Revised Statutes. Of course a Special Act of the Legislature could be secured authorizing the sale of the grounds received from the sale of the fund in other grounds.

Respectfully Submitted,

C. C. BOW,

Prosecuting Attorney.

ELECTRIC RAILWAY EXTENSION.

The Line to Navarre Looks Like a Sure Thing.

The Maillon Independent says: "The reading of the petition to the council last night, signed by J. W. McMillon, W. A. Lynch and C. A. Gates, who request that the necessary steps be taken for the granting of a street railway franchise from Maillon southward, is the first gun in the campaign between the gentlemen named Messrs. Warwick, Humburger, Seese and Young for the control of the right of way to Navarre. It goes to show that the line is regarded as a sure thing. The interest of the public is not as to which set of individuals shall have the privileges sought, but is to secure the construction of the road and its operation. This being the case, the franchise and ordinances that the winning bidder for the franchise shall be bound to build the road and to operate it within a reasonable length of time."

MINNIE TAKES A PLUNGE.

A Voyager on the Stream of Life Who Wants to Get into a Little Boat of Her Own.

Minnie Holm and Perry Holm joined hearts and destinies in 1886 and started on the voyage of life together as happy as a couple of New Jersey clams. The serenity of the trip was marred by the conjugal craft continually striking snags or getting into shallow water, until Minnie has finally concluded to grab a life preserving device of divorce, jump overboard and strike out boldly for the peaceful land of single blessedness. She has engaged Willison and Day of Maillon as pilots and they started by way of common pleas court this morning. The documents of the pilot's claim that Perry abused his companion voyager by knocking her down upon divers occasions, afterward abandoning her and failing to provide the necessities of life.

"The Blood is the Life."

There is a common explanation at this season. There is a certain bracing effect in cold air which is lost when the weather grows warmer; and when Nature is renewing her vigor, she purifies the blood and gives it a new life. This condition is owing mainly to the impure condition of the blood, and it is necessary to supply healthy tissue to the various organs of the body. It is to the help to be derived from a good medicine at this season of the year. The blood purifying, building-up qualities which the body craves, Hood's Sarsaparilla soon overcomes that tired feeling, restores the vigor and gives the blood a new life. It imparts vigorous health. Its thousands of friends as with one voice declare "It Makes the Weak Strong."

Death of George Ziellie.

George Ziellie, once a prominent and wealthy citizen of Maillon, died at the county infirmary at Maillon, Ohio, and was taken to Maillon in the afternoon, where he will be buried under the auspices of the Masonic order. He was seventy-two years old and had a very stirring career. At one time he was in the lively business in Canton and the most of his life was spent in the hotel business. He was twice elected street commissioner of Maillon and was the best city ever had.
